COMMISSIONERS' COURT.

The Commissioners' Court spent the day in discussing the road question, and advancing means of lowering the cost of working the roads.

The court is in correspondence with a firm which makes oil tractors and claims that the cost of operation is much lower than steam. The court is considering asking for a demonstration, as it costs nothing.

FORT WORTH PASTOR IMPRESSED BY A. & M.

Rev. H. W. Knickerbocker Returns from College with Highest Praise for Boys, Faculty and Facilities.

"I do not see why there is so much talk about moving the Agricultural and Mechanical College," said Rev. H. W. Knickerbocker, pastor of the Central Methodist Church, who has just returned from College Station, where he preached before the cadets of the college Sunday.

"I knew that we had a great school in the Agricultural and Mechanical College," he said, "but I never thought we had anything like I saw. It was absolutely remarkable.

"I find they have 2416 acres of land in their campus and more than a score of buildings which are valued at more than \$1,000,000. My trip through the buildings gave me an opportunity to see the splendid equipment they have.

"I can not understand how it could be possible for the college to be moved and all this valuable property abandoned. No educational institution could step in and take hold where the Agricultural and Mechanical College would quit.

"It is the healthiest bunch I ever saw. It appears that sickness is a stranger to the college."—Fort Worth Record.

ARRANGING FOR COMMERCIAL CLUB BANQUET

Also a Sale of Lots to Finance Club for Next Four Years.

The Commercial Club committee on arrangement for the annual meeting, consisting of A. W. Wilkerson, chairman; A. M. Waldrop, Eugene Edge, W. H. Cole, J. Webb Howell, L. L. McInnis and L. M. Hewitt, met in the club rooms at 3 o'clock yesterday afternoon to outline plans. The plan as outlined covers the annual banquet, the plan for selling the club lots in the southwest part of the city, and the future work of the organization.

The past work of the club, as viewed by the committee, has demonstrated its usefulness and necessity for the future prosperity and development of the city. The necessity for a greater fund was the unanimous verdict. The necessity for the stability of the club for the future years was another conviction.

The plan for the lot sale is that the lots shall be sold at \$300 each, divided into forty-eight payments, the purchase of a lot to constitute a membership, the purchase of two or more lots to constitute a firm membership.

This plan will give the members an interest in the development of values, and at the same time will furnish the club with a \$7000 fund annually for four years.

The annual meeting and banquet will be held Tuesday night, April 22, at 8 o'clock. As the place of meeting has not yet been definitely decided, this will be announced later.

DIXIE THEATRE

PLANNING A VIGOROUS FLY CAMPAIGN

City Health Officer Will Ask That City Dumping Ground Be Succeeded by City Crematory for Burning All Filth.

City Health Officer Dr. R. J. Hunnicutt is planning an active fly swatting campaign. Effort will be made to handle the danger by education. Instead of legislation, and to this end circulars and posters are being prepared.

The need of the campaign is great. The city of Bryan itself contributes largely to the always threatening danger, by the city dumping grounds, and Dr. Hunnicutt is preparing to petition that a crematory be built that the accumulated filth of the city may be burned. The matter is one that should have the most serious attention of the Council.

FIRST SALOONKEEPERS' ELECTION EVER HELD

[By Associated Press.]

Sioux Falls, S. D., April 16.—A municipal election was held at Elk Point today to select saloonkeepers who shall be given license. This was the first time the ballot was ever used for that purpose.

TEXAS INDUSTRIAL NOTES

[By Commercial Secretaries.]

West.—The split-log drag is being used in this section with much success. The good roads movement is taking definite form, and this place will soon boast of some of the finest roads in the country.

Kosse.—A modern cotton oil mill, with a capital stock of \$35,000, is one of the latest additions to Kosse's line of industries. Practically all the capital has been subscribed by home people. It is planned to have the mill in operation by fall.

Mexia.—The Methodist denomination of this city is planning the erection of a \$25,000 brick church building at an early date. Practically all the necessary cash has been raised, and the lots secured for the edifice.

Austin.—Work on the great dam and sewer system is progressing nicely, and Austin has more men employed at the present time than at any other period in her history, according to the Chamber of Commerce.

Alvarado.—A large and modern business building is nearing completion here. Two new mercantile concerns have located here within the past month.

Aquilla.—The Booster Club has adopted plans by which the split-log

drag will be used on the roads in this vicinity. It will be run one mile in each direction out from the town after each rain in the future.

Jefferson.—Jefferson will soon boast of another cotton oil mill if the plans of the Progressive Club, which have been under way for some time, materialize. It is said that the required amount of local capital has been subscribed.

Roanoke.—Saturday, April 19, has been selected as Trades' Day by the local business men. A \$10,000 cotton gin concern has been organized here, to be known as the Farmers' Gin Company.

Port Arthur.—During the month of March there were 81 vessels entered at this port, representing a tonnage of 250,000 tons. The entries were, with few exceptions, steamers and were largely in the oil carrying business.
